

I am pleased to introduce you to my Cube collection of furniture.

The furniture is made in my London workshops backed by the suppliers I have carefully chosen. I have been designing and making furniture at Northcroft for 26 years; I have enjoyed working with Cube and finding the synergy between the 'dazzle finishes' and the detailing.

Cube is for living and I hope you enjoy living with my furniture.

You can furnish all areas of the home with Cube.

As dining areas come in all shapes and sizes we are happy to make special size rectangular dining tables specifically for you.

Cube is made from Natural oak wood veneers. We then apply the finishes to the natural wood. The 'dazzle finishes' are unique to us. I found the idea whilst having a quiet time in the Egyptian Museum, Cairo.
